Report of Abnormal Groundwater & Surface Water Levels

Re.: Drought Declaration & County Assistance

Water Systems:

On February 4, 2014 the Tuolumne County Board of Supervisors (BOS) declared a local state of emergency due to drought conditions. This declaration was in concert with the Governor's Office which also declared a State of Emergency regarding the current drought conditions in California. Also on September 19, 2014 Governor Brown signed Executive Order (EO) B-26-14, which authorizes Cal OES to provide California Disaster Assistance Act (CDAA) funds to households that have lost their drinking water due to the current drought.

If you are experiencing any groundwater or surface water abnormalities, please take the time to fill out the intake form below. The County of Tuolumne and the Governor's Office will utilize the information to offer assistance at restoring water to the household to ensure that the residence has sufficient water for health and safety needs.

Property Owner Name _____

Property Owner Address _____

Contact Number and Email _____

Alternate Contact Information: _____

Water Source Type and Location; i.e. Well, Spring, ditch, creek, pond, _____

What is the primary use for the water source (Agricultural, Domestic, and Combination of

Agricultural/Domestic)? _____
